Datasheet for ABIN5671385 **anti-Ryncolin-1-Like antibody (Middle Region)**

Overview

Quantity:	100 µL
Target:	Ryncolin-1-Like (LOC108969966)
Binding Specificity:	Middle Region
Reactivity:	Human
Host:	Rabbit
Clonality:	Polyclonal
Application:	Western Blotting (WB)

Product Details

Immunogen:	The immunogen is a synthetic peptide directed towards the middle region of Human TNR8
Sequence:	PDSPSSVGRP SSDPGLSPTQ PCPEGSGDCR KQCEPDYYLD EAGRCTACVS
Characteristics:	This is a rabbit polyclonal antibody against TNR8. It was validated on Western Blot.
Purification:	Affinity purified

Target Details

Target:	Ryncolin-1-Like (LOC108969966)
Alternative Name:	TNR8 (LOC108969966 Products)
Background:	<p>The protein encoded by this gene is a member of the TNF-receptor superfamily. This receptor is expressed by activated, but not by resting, T and B cells. TRAF2 and TRAF5 can interact with this receptor, and mediate the signal transduction that leads to the activation of NF-kappaB.</p> <p>This receptor is a positive regulator of apoptosis, and also has been shown to limit the</p>

Target Details

proliferative potential of autoreactive CD8 effector T cells and protect the body against autoimmunity. Two alternatively spliced transcript variants of this gene encoding distinct isoforms have been reported.

Alias Symbols: TNFRSF8, CD30, D1S166E,

Protein Interaction Partner: UBC, Traf2, Traf1, TRAF5, TRAF3, TNFRSF8, BCL6, TDP2, TNFSF8, ALK, TRAIIP,

Protein Size: 483

Gene ID: 943

NCBI Accession: [NP_001268359](#)

Application Details

Application Notes: Optimal working dilution should be determined by the investigator.

Restrictions: For Research Use only

Handling

Format: Liquid

Buffer: Liquid. Purified antibody supplied in 1x PBS buffer with 0.09 % (w/v) sodium azide and 2 % sucrose.

Preservative: Sodium azide

Precaution of Use: This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.

Storage: -20 °C

Storage Comment: For short term use, store at 2-8°C up to 1 week. For long term storage, store at -20°C in small aliquots to prevent freeze-thaw cycles.
